the room

Designer Sandra Gaylord, Allied ASID, played off ample natural light streaming in from the room's five recessed windows to create a subtle palette of neutrals and muted pinks. A corona over the bed adds an opulent punch of playfulness while two French ladderback chairs in front of the fireplace offer cozy spots for reading. Gaylord finished the room with fun items meant to help spark the imagination, like books, a vintage model car, and an art easel.

Sandra Gaylord

Gaylord is a certified kitchen designer with a degree in interior design.

She has completed projects in D.C., Michigan, Florida, and South Carolina, and her work has been featured in *Everyday With Rachael Ray*, *Home+Design-MD,DC,VA*, and *Charleston Home*.

Where to find her:

STEAL THIS LOOK

1. In rooms with steady streaming light, install swing rod curtains to temper the sunlight without obscuring it completely.
2. Balance formal, architectural lines created by wall recesses and wainscoting with curved, "softening" elements. Think round mirrors and spindled chair legs.
3. Add a fun, comfortable seating area to kids' bedrooms to encourage quiet reading and play.
